

DEC HABs Program Archive Summary 2012 – 2017

The letter codes below refer to maximum bloom status that was documented by the DEC HABs Program in each waterbody in each year.

S (Suspicious Bloom): DEC staff determined that conditions fit the description of a cyanobacteria HAB based on visual observations and/or digital photographs

C (Confirmed Bloom): Water sampling results have confirmed the presence of a cyanobacteria HAB which may produce toxins or other harmful compounds

HT (Confirmed with High Toxins Bloom): Water sampling results confirmed that there were toxins present in quantities to potentially cause health effects if people or animals came in contact with the water

| Waterbody Name | County | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 |
